

“The BEST of the BEST”

Total Networking & Consulting, LLC

Founded by Bruce Libman in 2006, The TNC Groups are more than just business networking groups. The goal of the TNC networking groups is to bring together local business owners and professionals who are truly the best-in-class in their respective industries, and who inspire a sense of responsibility for each member’s growth and success. Our members make every effort to learn about each other’s business, gain trust and confidence, refer high quality prospects and enthusiastically promote one another whenever possible. Through the voluntary exchange of ideas and feedback, group members help other members network more effectively and convert prospects into customers.

Creating an ongoing win-win partnership with each and every member is paramount to the success of the groups, and is the collective responsibility of the group.

TNC networking groups are sufficiently large enough to represent a wide variety of businesses in and around New York, while avoiding overlap in business type or specific profession. As of the 1st quarter of 2012, the Best of the Best has over 100+ members and is still growing.
